Tiny Tigers Care for the Earth!

Our Planet Promise

At Tiny Tigers, we love our world!

We want to take care of it — every day!

We Save Energy

- We turn off lights when we don't need them.
- We close taps so we don't waste water.
- We dress for the weather instead of turning the heater too high

We Don't Waste

- We recycle paper, plastic and food scraps.
- We use things more than once — like boxes for building!
- We help tidy up and put rubbish in the right bins

We Eat Kindly

- We try yummy fruit and veg that don't travel far.
- We don't waste food — we take just what we need.
- We sometimes grow our own food in our garden

We Love Nature

- We look after bugs, birds, and plants.
- We plant seeds and water our garden.
- We are gentle with animals and living things.
- We are making a compost food bed

We Travel Smart

- We walk, scoot or ride our bikes when we can.
- We talk about ways to help the planet with our grown-ups.

We Learn About the Earth

- We read stories about the planet.
- We do crafts with recycled things.
- We talk about looking after our world every day!

Our Tiny Tigers Promise:

"We are little, but we can do BIG things for the planet!"

Our Climate change champion is **Lisa Collins.**
